CES 21st Century Students Enter the DOME…again?

Students in the Cumberland Elementary 21st CCLC "Village Connection" afterschool program entered the DOME Theater at Harlan County High School on Monday March 7, 2011. The DOME Theater was recently at Cumberland Elem. and was scheduled to stay for the afterschool program; however due to snow 21st CCLC was cancelled. Luckily the DOME was booked a couple of weeks later at HCHS and the Cumberland 21st CCLC students were able to attend during their afterschool program. 40 students in grades 1st-8th attended the field trip and were able to experience the exhilarating DOME! Students watched "The Dinosaur Prophecy" in which they were able to join paleontologists at the scene of the crime, excavating bones and wondering what killed the mighty dinosaurs. All the students came out of the DOME with looks of amazement on their faces! Several were heard mentioning their theories as to what they thought really happened to the dinosaurs. Not only was the DOME an excellent experience for the students but just the fact that they took a trip that led them through the doors of Harlan County High School's Black Bear territory made them overwhelmed with excitement!
