Time: 1:00pm

Location: Virtual Meeting via Zoom

Present – Misty Fox, Rachel Rose, Caleb Rose, Ken Osborne, Anthony Nolan (joined late)

Absent – Kristen Lester, Cameron Lester

Meeting Minutes

Meeting Called to Order –

Ms. Fox discussed the class offerings in the program with those in attendance and as well as CTE department goals. EOP exams and requirements were discussed as well.

Mrs. Rose brought up a discussion about virtual learning regarding the program. All in attendance agreed virtual has increased the difficulty for all students, but maybe more so in this program due to the software needed and in-person instruction being a needed resource.

Discussion of preparedness of students after completing Web/Development/Administration program as well as other CTE programs. Pros and cons were shared by all in attendance.

Our Web program allows students to be able to work on websites during their high school years and after, giving them the knowledge to work for someone. Gives them a great start compared to those that don't have this training. Mr. Osborne felt our students were very well prepared and bragged on an employee he currently has who went through our program.

Mr. Osborne did mention a few cons not necessarily related to our program, just web design in general. Students tend to want to "code" but automatically think of gaming and "big money." They also want to build gaming computers.

Next meeting was discussed. A date will be set in the spring of 2021 and shared with everything.

After no further discussion meeting was adjourned at 2:00.
