

Drama/ Arts & Humanities NTI projects

Freyer

NTI Days 1-5

Use the Kennedy Center's website to create your Greek tragedy. Link is <http://artsedge.kennedy-center.org/interactives/greece/theater/stageTragedy.html>

Pay special attention to the Explore Tragic Structure page and then use the interactive Stage Your Own Tragedy link to build.

You are to spend each day on one part of the five part structure. So, you spend day one on the prologue. You spend day two on the parados, etc.

NTI 6-10

Create either a video diary (keep school appropriate) each day. Focus on telling a story about either something that you did, or you can focus on telling a story you made up. Make it authentic and believable. If you do not have access to a phone to film this, then write the story down and then you will perform it for the class on the first day we return to school.
