

# Cumberland Elementary School Students enter the DOME

Third through eighth grade students at Cumberland Elementary School recently ventured inside of the DOME Theater. The DOME Theater is an inflatable dome that students sit inside of and get to experience thrilling 4-D videos. The DOME Theater was brought to CES by the FRYSC and 21<sup>st</sup> CCLC. Each homeroom who visited the DOME was able to experience a special show geared towards that grade's Science Core Content. 7<sup>th</sup> & 8<sup>th</sup> grade students viewed "Night of the Titanic". It showed the unique conditions of Earth and space that coupled with human error contributed to the sinking of the Titanic. 6<sup>th</sup> grade students viewed "Cosmic Collisions", a thrilling trip through space to explore cosmic collisions, hypersonic impacts that drive the dynamic and continuing evolution of the universe. 5<sup>th</sup> grade students watched "Force Five" where extreme weather took center stage in a realistic animated show. 4<sup>th</sup> grade students watched "Passport to the Universe", a thrilling journey out into the Solar System, through the Milky Way Galaxy and to the edge of the observable universe. 3<sup>rd</sup> grade students viewed "Earth's Wild Ride", where they were able to experience the heart-pounding exhilaration of a water canyon ride near an erupting volcano. The DOME Theater was also booked to stay for the 21<sup>st</sup> CCLC afterschool program.

However, due to snow the show was cancelled. It has been rescheduled for March 7<sup>th</sup>.
