

Dr. Seuss and Heimlich

After reading an article about the Heimlich maneuver in the Weekly Reader in Mrs. Janet Howard's class, students were taught proper thrust techniques by Nurse Elena Creech.

Students in Mrs. Janet Howard's class recently celebrated Dr. Seuss' birthday. Students read a biography of Dr. Seuss, read "The Cat in the Hat Comes Back" and watch the video of "The Butter Battle Book". They then compared and contrasted the video with the current nuclear races among countries. Of course no birthday party would be complete without cake and singing.
