

Seatbelt Safety and Invisible Wonder Air programs come to Cumberland Elem.

On August 24th, students at Cumberland Elementary were educated on seat belt safety. The program was brought to the school by the CES FRYSC. The students were shown the effects of wearing seatbelts and not wearing them during a crash. The “Rollover Simulator” demonstration was done by Dreama Wright from the Cumberland Valley Area Development District.

“Air: The Invisible Wonder” program was presented to the students at Cumberland Elementary on August 30th. The students learned many interesting facts about air through demonstration and participation in the assembly. The program was sponsored by the Cumberland Elementary FRYSB.
