

Students in Mr. Devin Watts' 4th & 5th grade science classes and Mrs. Rachel Huff's 3rd grade science class recently participated in a science fair. Students have worked tirelessly over the past several weeks researching about their experiments, forming a hypothesis, conducting tests, and drawing conclusions. They also designed and organized display boards for their projects by cutting letters, typing their steps, and added many other decorative visuals!

From the 3rd grade, Ella Card and Rylee Napier placed first; Riley Anglian and Carson Madden placed second; and Khloe Carr and Carly Smith placed third.

From the 4th and 5th grade groups, Cruz Galloway and Robert Pace placed first; Braelynn Smith and Cheyanne Coats placed second; and Braelynn Langley and Kylee Cottrell placed third.
