### Kentucky College of Osteopathic Medicine PEPP(Professional Education Preparation Program)

***June 8th-14th, 2019***

---

The Professional Education Preparation Program (PEPP) offered by Kentucky College of Osteopathic Medicine (KYCOM) exists to remedy the significantly underserved medical needs of Kentucky's rural areas by addressing the chronic underrepresentation of Kentucky residents in medical school admissions. The PEPP Program was established by the 1980 Kentucky General Assembly (KRS 162.028) for the purpose of increasing the number and proportion of students particularly from medically underserved areas of the commonwealth who apply to, are accepted by and graduate from medical school. The PEPP program receives funds from the Kentucky Council on Postsecondary Education.

The KYCOM PEPP Scholars Program accepts Kentucky high school students. Given that applications exceed program capacity, students about to enter the 12th grade who meet program requirements are accepted first, followed by students entering the 11th grade. The KYCOM PEPP program annually enrolls approximately 25-30 high school students in a one-week summer residential program that offers participants a variety of educational experiences targeted to enhance their personal interest in a medical career, add to their understanding of the elements of a medical education, and expand their awareness of how medicine is practiced in a rural setting. Typically, PEPP Program activities include lectures, anatomical laboratory sessions, volunteer work in the local hospital and participation in relevant social and cultural events.

*To apply, please mail the following six items to the KYCOM PEPP Program at the address listed below. The application documents due no later than March 15, 2019.*

1. PEPP scholar's application. *(Complete all sections.)*
2. Personal statement *(3 page maximum essay)* that explains your interest in becoming a physician and in participating in the KYCOM PEPP Program.
3. Sealed letter of recommendation from a science or math teacher. *The letter of recommendation must remain confidential and be sealed and signed by the teacher across the seal of the envelope. This letter should include an assessment of the applicant's interpersonal skills, reliability, perseverance, communication skills, self-confidence, empathy/consideration of others, ability to interact and work with others, maturity and judgment, potential to set and achieve goals, and motivation for a career in medicine.*
4. Official high school transcript.
5. Copies of student's ACT and/or SAT Scores (or PSAT scores). Unofficial copies from the student's high school are acceptable.
6. Student photograph *(required)*. (The application will be considered incomplete if a photograph is not provided.)

Please note that after acceptance into the KYCOM PEPP Program, students must provide proof of current health insurance coverage and immunizations. Additionally, accepted students must provide documentation of a TB skin test within the year and provide proof of chicken pox immunity.
