

Scholarship Memo 5

November 30, 2021

- **The University of Kentucky Early Action deadline is December 1, 2021. Please help us remind your students that they need to have their application, application fee or waiver form, high school transcript and ACT/SAT (if they are not test optional) submitted on time.**

UK is fully test optional for students for admission and scholarships. It will never disadvantage a student to send their ACT/SAT. UK evaluates students based on the track that gives them the best opportunity for admission to our university and scholarships. For example, if a Kentucky student applies to UK with a 3.5 unweighted high school GPA and a 24 ACT score, they would not be eligible for academic scholarships under the traditional criteria, which requires a 3.3 unweighted high school GPA and a 26 ACT score. **However, the student would qualify for academic scholarships under our test optional criteria because it requires a 3.5 unweighted high school GPA with no test score needed.** Even if the applicant did not choose “test optional,” we will give them the advantage for scholarships by using that metric in their evaluation.
