

Scholarship Memo #15
March 25, 2024

Commonwealth Credit Union's High School Scholarship

Four graduating seniors will win a \$2,000 scholarship.

Eligibility: Open to all graduating seniors who are the primary member on their CCU account by March 31, and are attending a school in the fall that results in a diploma, license, or certification. So, yes, that includes vocational training.

Application Deadline: March 31 at 11:59 pm

How do students apply?

Students will need to record and upload an unlisted video to YouTube that does not exceed 5 minutes. An unlisted video is a type of private video. In this video, they should answer the following:

1. How are you bettering lives in your community today?
2. How can CCU better the lives of college-aged students?
3. How will your education enable you to better lives in the future?
4. What are you looking for from your banking experience?

This video URL will be added to the digital application. Once the application is completed with all required information, including the video URL, then simply hit the submit button.

What if the student does not have a Commonwealth Credit Union account?

Not a problem. If the student is 18 or older, they can apply online for membership. Even better, if they enter the code “WOW5,” we’ll get their account started with the initial \$5 deposit. If they are under 18, they’ll need to stop by their neighborhood branch, but using that same code, “WOW5,” will get their account started at the branch too.

If you have any questions about this process, just reach out to scholarships@cwcu.org.
